High energy, less pain – enPuls softshot technology

enPuls creates unique shockwave pulses by using a projectile 5 times heavier than standard air-pressure systems and a reduced final velocity upon contact with the applicator.

Technical data / Options enPuls Version 2.0

Technology

Compressor-free, ballistic Radial Pulse Therapy system with electromagnetic generator for projectile acceleration

Power Levels / Energy

60-185 mJ freely selectable in 10 mJ increments

Modes

Frequencies from 1 to 22 Hz

Programs

7 pre-set programs, customizable
25 illustrated treatment recommendations

Controls

Color touchscreen
Handpiece operation with multi-directional foot switch

Includes

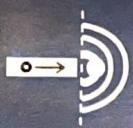

Aluminum suitcase with enPuls, handpiece

- unique, very comfortable shockwave pulses (softshot)
- different handpieces
- energy levels from 60 to 185 mJ (comparable to 1-5 bar)
- burst mode for trigger point treatment
- lower maintenance, longer lifetime

Through the force of the accelerator and the mass of the projectile, the pulses carry the same amount of mechanical energy, but are more comfortable for the patient than comparative shockwave systems.

enPulsPro

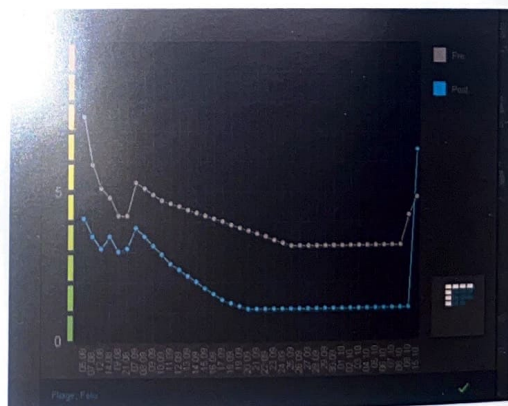

Radial Pulse Therapy - An effective alternative for treating chronic soft tissue pain

The enPulsPro device delivers energy into the target tissue where traditional soft tissue therapy techniques cannot reach. This is all done with little or no stress on the practitioner's hands.

Technical data / Options enPulsPro

Technology	Compressor-free, ballistic Radial Pulse Therapy system with an electromagnetic generator for projectile acceleration
Power Levels / Energy	60-185 mJ freely selectable in 10 mJ increments
Modes	Frequencies from 1 to 22 Hz
Programs	7 pre-set programs, customizable 25 illustrated treatment recommendations
Controls	12" color touchscreen Hand piece operation with multi-directional foot switch
Memory / Updates	SD card for favorites & customized programs (up to 120 entries) firmware updates

Details

- ports for two handpieces
- indication menu with treatment protocols
- integrated VAS scale
- intuitive touchscreen operation
